THE
MARINER
1950
VOLUME ELEVEN
MARINE HIGH SCHOOL
MARINE, ILLINOIS
PUBLISHED BY . . . THE JUNIOR CLASS

Foreword

In presenting this, the eleventh volume of the Mariner, we, the Editors endeavor to show by picture and print a worthy record of the past year. It marks an important milestone in our educational career. May we not stop here, but ever seek to achieve higher goals. We sincerely hope that it will bring back happy reminiscences to us in years to come.

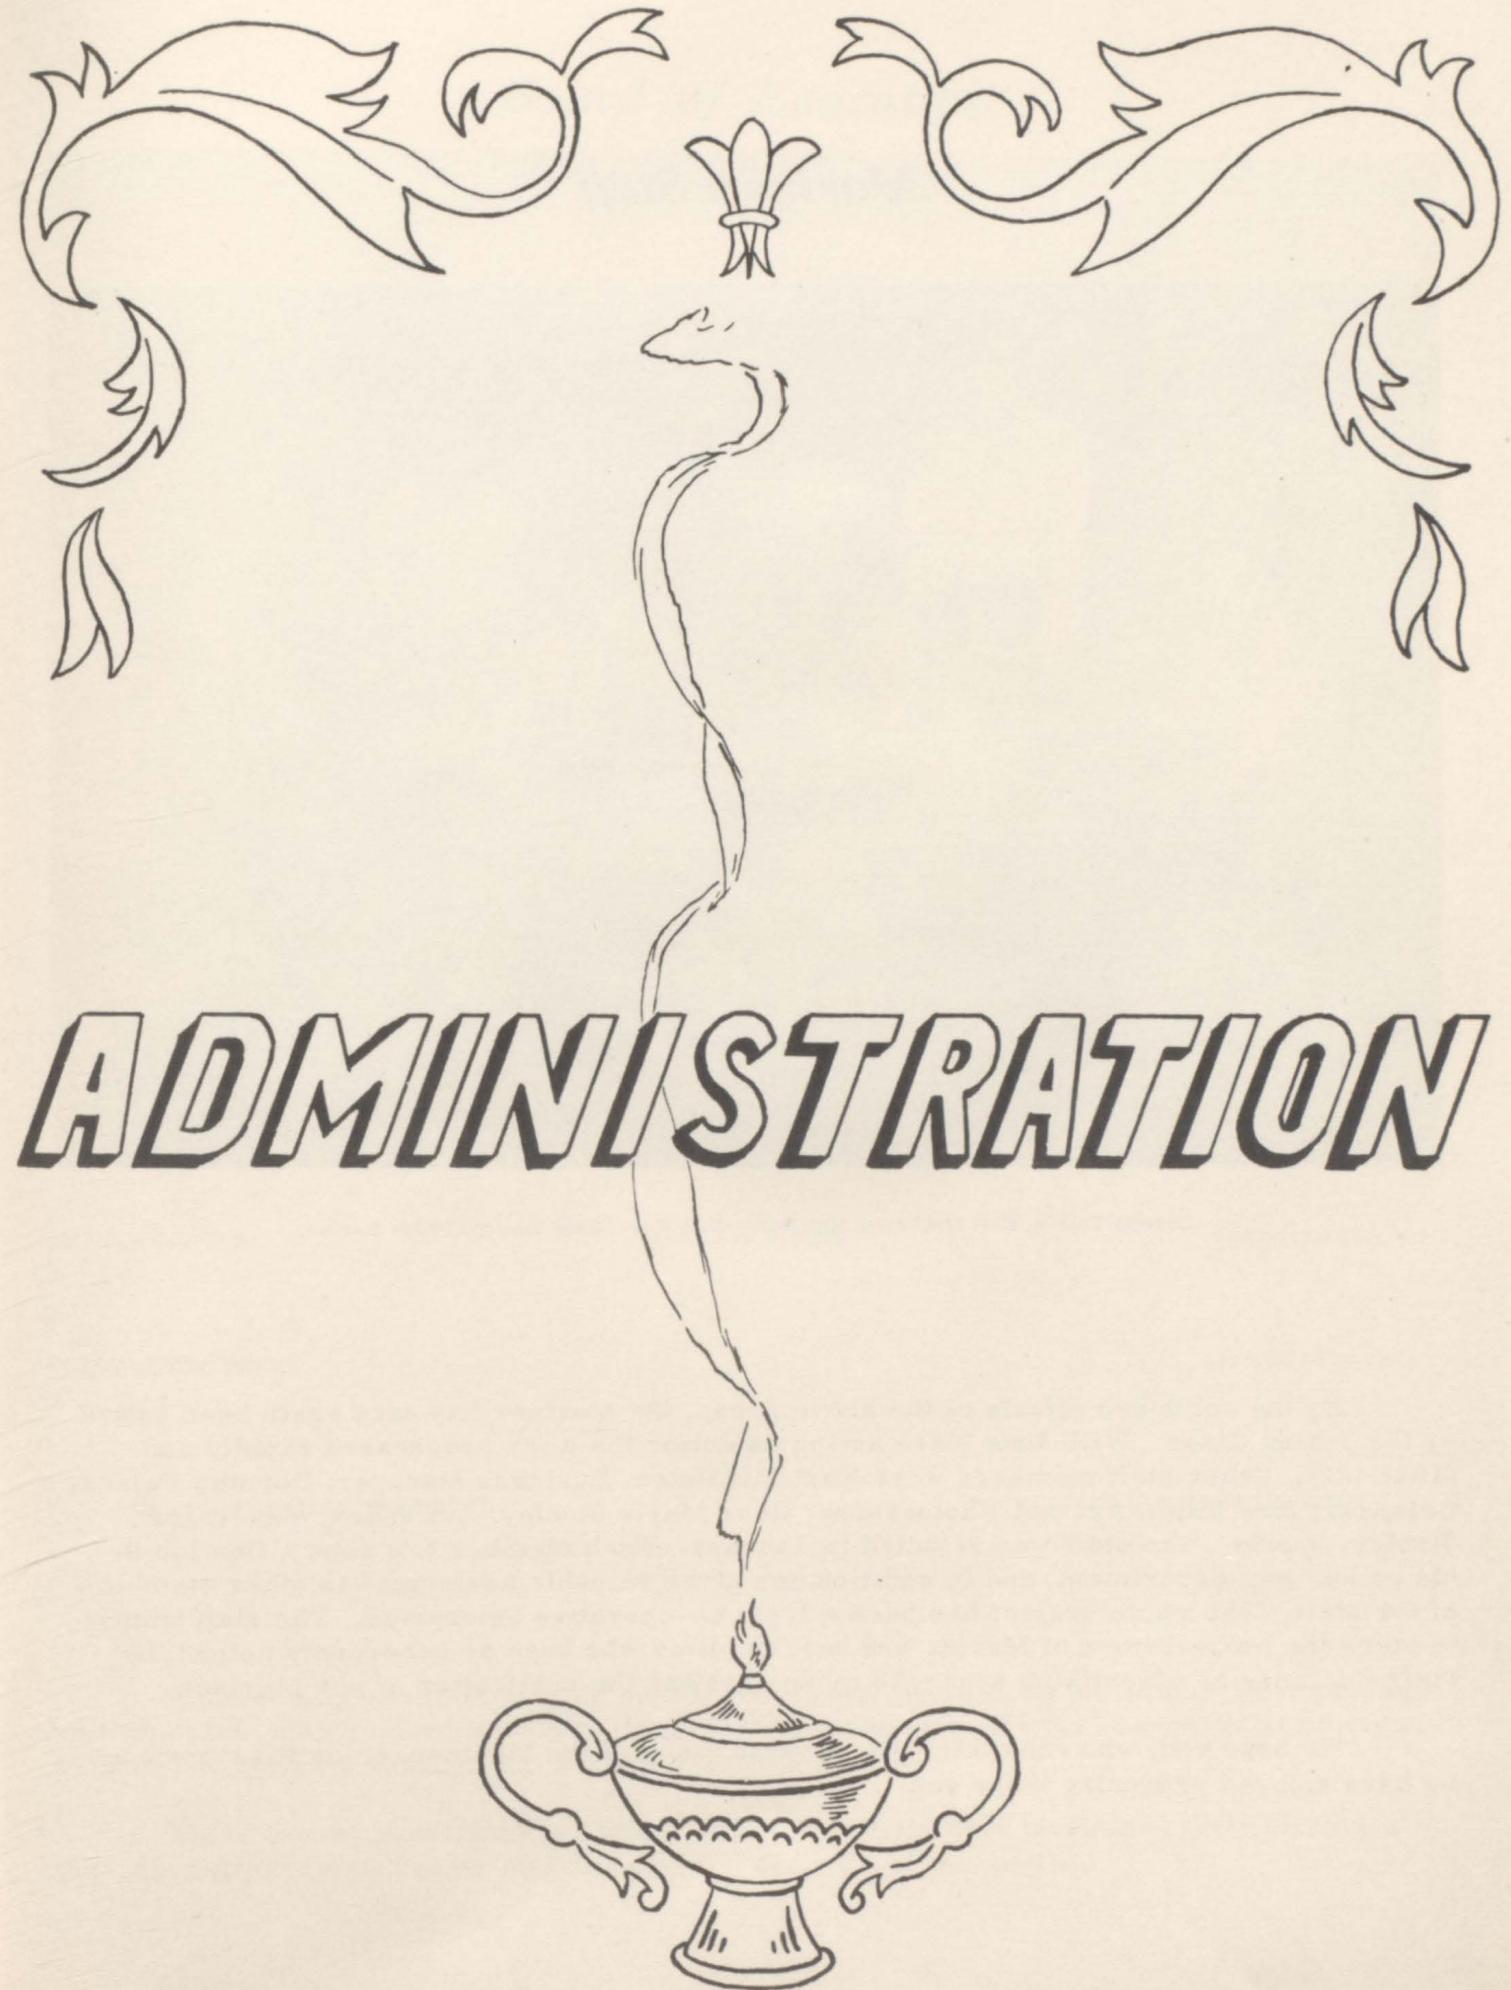

DEDICATION

-TO-

MRS. WILLIAM STORTS

Who has devoted her time and effort to
to the futhering of music and Physical Edu-
cation in our school for the past eight years,
we, the Class of 1950, respectfully dedicate
this, the eleventh volume of the Mariner.
We are truly indebted to her for her coun-
seling and guidance.

ADMINISTRATION

Mariner Staff

Dorothy Faires, Earl Middleton, Ione Kolm, June Ware, Rose Stanley, Junior Stanley.

By the combined efforts of the above group, the Mariner has once again been edited by the Junior Class. With June Ware acting as editor the work progressed rapidly and efficiently. Other staff members were Earl Middleton, Business Manager; Dorothy Faires, Calendar; Ione Kolm, Art and Photography; Rose Marie Stanley, Activities; and Junior Stanley, Sports. The staff was selected in January. Each member has done a fine job in his or her own department, and in addition has given valuable assistance to other members of the staff. The whole project has been a truly co-operative enterprise. The staff wishes to thank the businessmen of Marine and nearby cities who have so generously helped, by their purchase of advertising space, to make possible the publication of our Mariner.

We hope you, who read this, the eleventh issue of the Mariner, enjoy it as much as we have enjoyed producing it for you.

Without exception there is no public community position as paramount in importance as that of the school board member. Upon their shoulders rests the responsibility for conserving the nation's most precious resource--its YOUTH.

Their unsung sacrifices for public education, their hard work, and their victories over discouragement, are helping to build the security of our nation.

Our Sophomore Class is a roving one;
They never stay in one spot.
Some never have their lessons done,
Nor even care a lot.
Geometry is disliked by most---
A few get their work just fine;
It seems that some just want to coast--
(Sometimes I worry about mine.)
We are on the whole a jolly crew,
We have one heck of a time.
Below we give the class to you--
And so we end this rhyme.

B. B. and S. W.

Let's take a stroll through study hall during the sixth period and catch a glimpse of the Sophomore Class at--work? Walking down the aisle we come to Ramona Schaefer. She is a jolly girl and is always ready for a good time. Mona, who lives so far from school, can usually be found at the High School "Hangout".

Right back of Mona sits Marlene Wildhaber. She is an active girl who helps lead the fifteen rahs for our team. Marlene knows that a smile goes a long way.

Next we come to Marlene's very good friend, Donna Schuessler. She likes sports and is quick on the draw with witty remarks. Her philosophy of life is have fun and ask questions later.

Behind Donna, sits Sylvia Wisnasky. She is an honor roll student and very active in school affairs. Sylvia believes that there should be at least one lady in the class.

Next we come to Charles Johnson. He is an energetic boy who usually accomplishes what he sets out to do. Charles is from the country but he seems to like town school best.

Across from Charles sits William Wisnasky. He is a tall lanky boy who does not especially care for school work. Willie has been practicing taxidermy in his spare time.

In front of Willie sits Doris Becker. She like Mona, her best pal, likes to have a good time. Doris shows her ability in playing the clarinet in the school band.

Next we come to Paul Vogelbacher. He is a pleasingly plump boy but in spite of this he is one of the important players on the basketball team. Paul can usually be found where mischief is brewing.

Paul's best friend, Francis McGow, sits in front of him. He has started on his climb up the ladder by securing a job as delivery boy. Francis may be a quiet boy, but don't let him fool you; he likes to tease the girls.

The next and last girl of the class Barbara Bacon, sits in front of Francis. She is a fun-loving girl and can be found anywhere where fun is taking place. Babs plans to be a nurse when she is old enough.

Last, but not least, we come to Donald Goodall. Although he could get good grades if he studied, he would rather get into mischief. Just remember "wherever Don is--is trouble"

"Cats that are made for little boys and girls to maul and tease are called Maltese cats. Some cats are known by their queer purrs. These are Pursian cats. Cats with bad tempers are called Angorie cats. Cats with deep feelings are called Feline cats."

Instead of coming to the Junior Class with any "kick" about this annual, just register your "kick" on a nice, white, square piece of paper, fold it, and place it carefully in the nearest waste basket. The janitor will then see that your suggestion is carried out.

SOPHOMORE BONERS

"Jim and I are inanimate friends."

"I can usually tell a fat man from a thin man. The fat man is usually short and fat and the thin man is tall and thin."

"I am inert."

JUST ARRIVED !!!

The Freshman Class is small with a total number of five. Even though they take a lot of ribbing, they are a very good natured group. One day, while walking through the corridor, I came upon a congregation of the "Big Five". Stepping quickly behind the file cabinet and taking notes, I learned these things about the "Greenies".

In the center of the group was Betty Keller. Although Betty joined us at the beginning of the second semester, she has acquired a good many friends, and is well liked by all. Betty is industrious and likes to read mystery stories.

Doing most of the talking in the group was Leonard Hollmann. Although he is a very serious minded boy, he gives his two cents worth of teasing. Leonard likes to draw and has contributed much to the art department of the Clipper.

Standing next to Leonard and disagreeing with his every word, was Betty Mayer. She is very active and can usually be found in the midst of mischief. What Betty lacks in stature she makes up for in energy.

Betty's best friend Doris Loos was standing next to Betty helping her with her barrage of words. Doris likes music and contributes her ability as cornetist to the school band. She seems to be a quiet girl, but in an argument she will be heard.

Last, but not least, was Billy Reilson. He is a quiet boy usually, but nevertheless he likes to help Leonard out when it comes to teasing the girls. Billy would rather farm than go to school.

The printer gets the money,
The Editor gets the fame,
The students get the Mariner,
But the Staff gets all the blame.

INITIATION

On September 19, 1949, a party was given for the Freshmen by the Juniors and Sophomores, at the Country Club. Our committees for this outing functioned very effectively. Materials for our fire were on hand, some form of entertainment was taking place all the time, and plenty of food was available to be enjoyed by all. The games included baseball, volleyball, and badminton; then when no one could see to play outdoors, they played dart-ball in the building. The refreshments consisted of soda, roasted wieners, potato salad, and potato chips. All seemed to enjoy themselves.

HALLOWEEN

The annual Halloween party was held at the Gymnasium for the students of grades 7th through 11th of the entire district. The event was celebrated in true Halloween fashion by witches, black cats, and pumpkins. The costumes, which varied in theme and originality, provided a colorful setting. Many of them were unknown. Everyone took part in the Grand March to choose the winners in costume. The evening was spent in dancing, games and contests. Refreshments were served, which consisted of cider and doughnuts.

LATIN CLUB

The Latin Club of this year has ten members with Miss Rainey as sponsor; June Ware, President; Marlene Wildahaber, Vice-President; and Dorothy Faires, Secretary. Their meetings are held the fourth Tuesday of the month, at the homes of the members respectively, during which varied programs are given. Latin songs are sung, and games are played. Then refreshments are served. The Latin members have a grand time at their meetings.

GLEE CLUB

This year the Glee Club is different than the past, for we have enrolled boys as well as girls. There are thirty-three members this year. Mrs. Storts is director, with Marlene Wildhaber as Librarian and June Ware as Secretary. The practice periods are held every Monday and Wednesday mornings from 8:45 to 9:20. The purpose of this organization is to interest the members in music. They also take part in musical plays.

THE CLIPPER

The CLIPPER, the paper containing the news of the school and other articles of interest, is printed every month. It is the eleventh year of publication. It is published by the Freshmen and Sophomores and supervised by Miss Rainey, with Barbara Bacon as the editor, and Doris Loos as assistant editor. They all do a good job with the CLIPPER.

SCHOOL BAND

We have eleven members in the band with ten beginners. We hope that they will be in the regular rehearsals when this book is published. Band days are Friday mornings and Tuesday all day. The band members play in any entertainment for the school. Mrs. Rodger is their director this year. She is new for the band members as this is her first year for Marine, and everyone thinks she is a capable director for music. She can play many instruments.

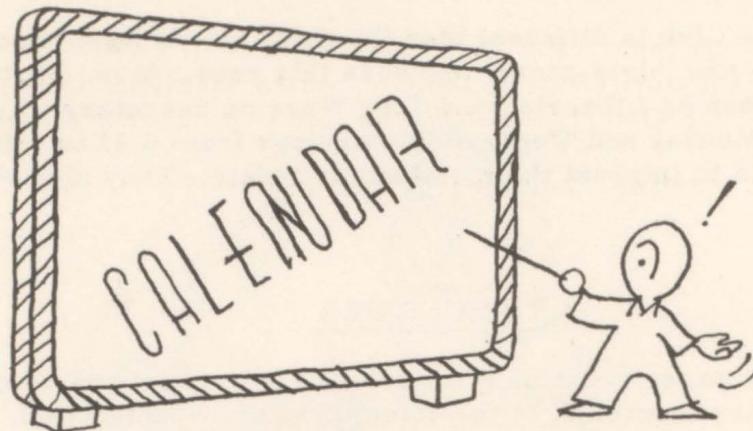

TUBERCULOSIS TEST

Dr. Collins from the Sanatorium at Edwardsville was here January 12, to give a talk on Tuberculosis. He was also here on January 17 to give the skin test for tuberculosis. Most of the students took the test, except those who showed that they were positive last year. Dr. Donald Shoemaker gave the students the tests. On January 25, four of the high school pupils went to St. Jacob to have an X-Ray of the chest.

CHRISTMAS PLAY

This year the annual Christmas program was presented the evening of December 21, 1949. The record attendance and enthusiasm for the program indicated it was a grand success. The program was divided into two parts. The first part included the candle light procession which we think was a very impressive part of the program, and the Christmas story, presented by the Glee Club, told in song with accompanying pantomime. The second part was the operetta, "The Christmas Thieves" by Goodwin and O'Hara, which told the story of a group of children who gave a Christmas program to raise money for the orphan home. While the children were giving their program, the thieves had gone to the orphans' home and stolen their money, and hidden it in a barn. By the time the operetta came to an end, however, the money was found, the thieves were caught, and everybody was happy.

A radio program hitting the air at 7 a.m. each day received this note from a feminine fan: "Before I tuned in your program, I could never get my husband out of bed in the morning. Now he can't get out of the house fast enough".

August

26. High school registration. Just getting ready for the regular old grind.
29. First grade registration.

September

1. Back to school.
5. Labor Day.
19. Party for the "Greenies". What fun we had, umm!

28. School picnic.

May (continued)

29. Students come back for their report cards. It's too late to work harder now.
30. Memorial Day Services.

A TOAST TO THE JUNIOR CLASS

Here's to the class of '50 A.D.
The Juniors of old M.H.S.
Our number is small, but I'm sure you'll agree,
In quality we are the best.

Now we don't mean to brag or boast
It's just the ways of youth;
So please believe the words of this toast
For we can't evade the truth.

According to alpha and beta we find
That Dorothy comes first in this ode,
In education she has quite a mind
But to have a good time is her code.

Now to Ione our thoughts we turn,
In music she excels;
For fame in singing she does yearn,
At least that's what she tells.

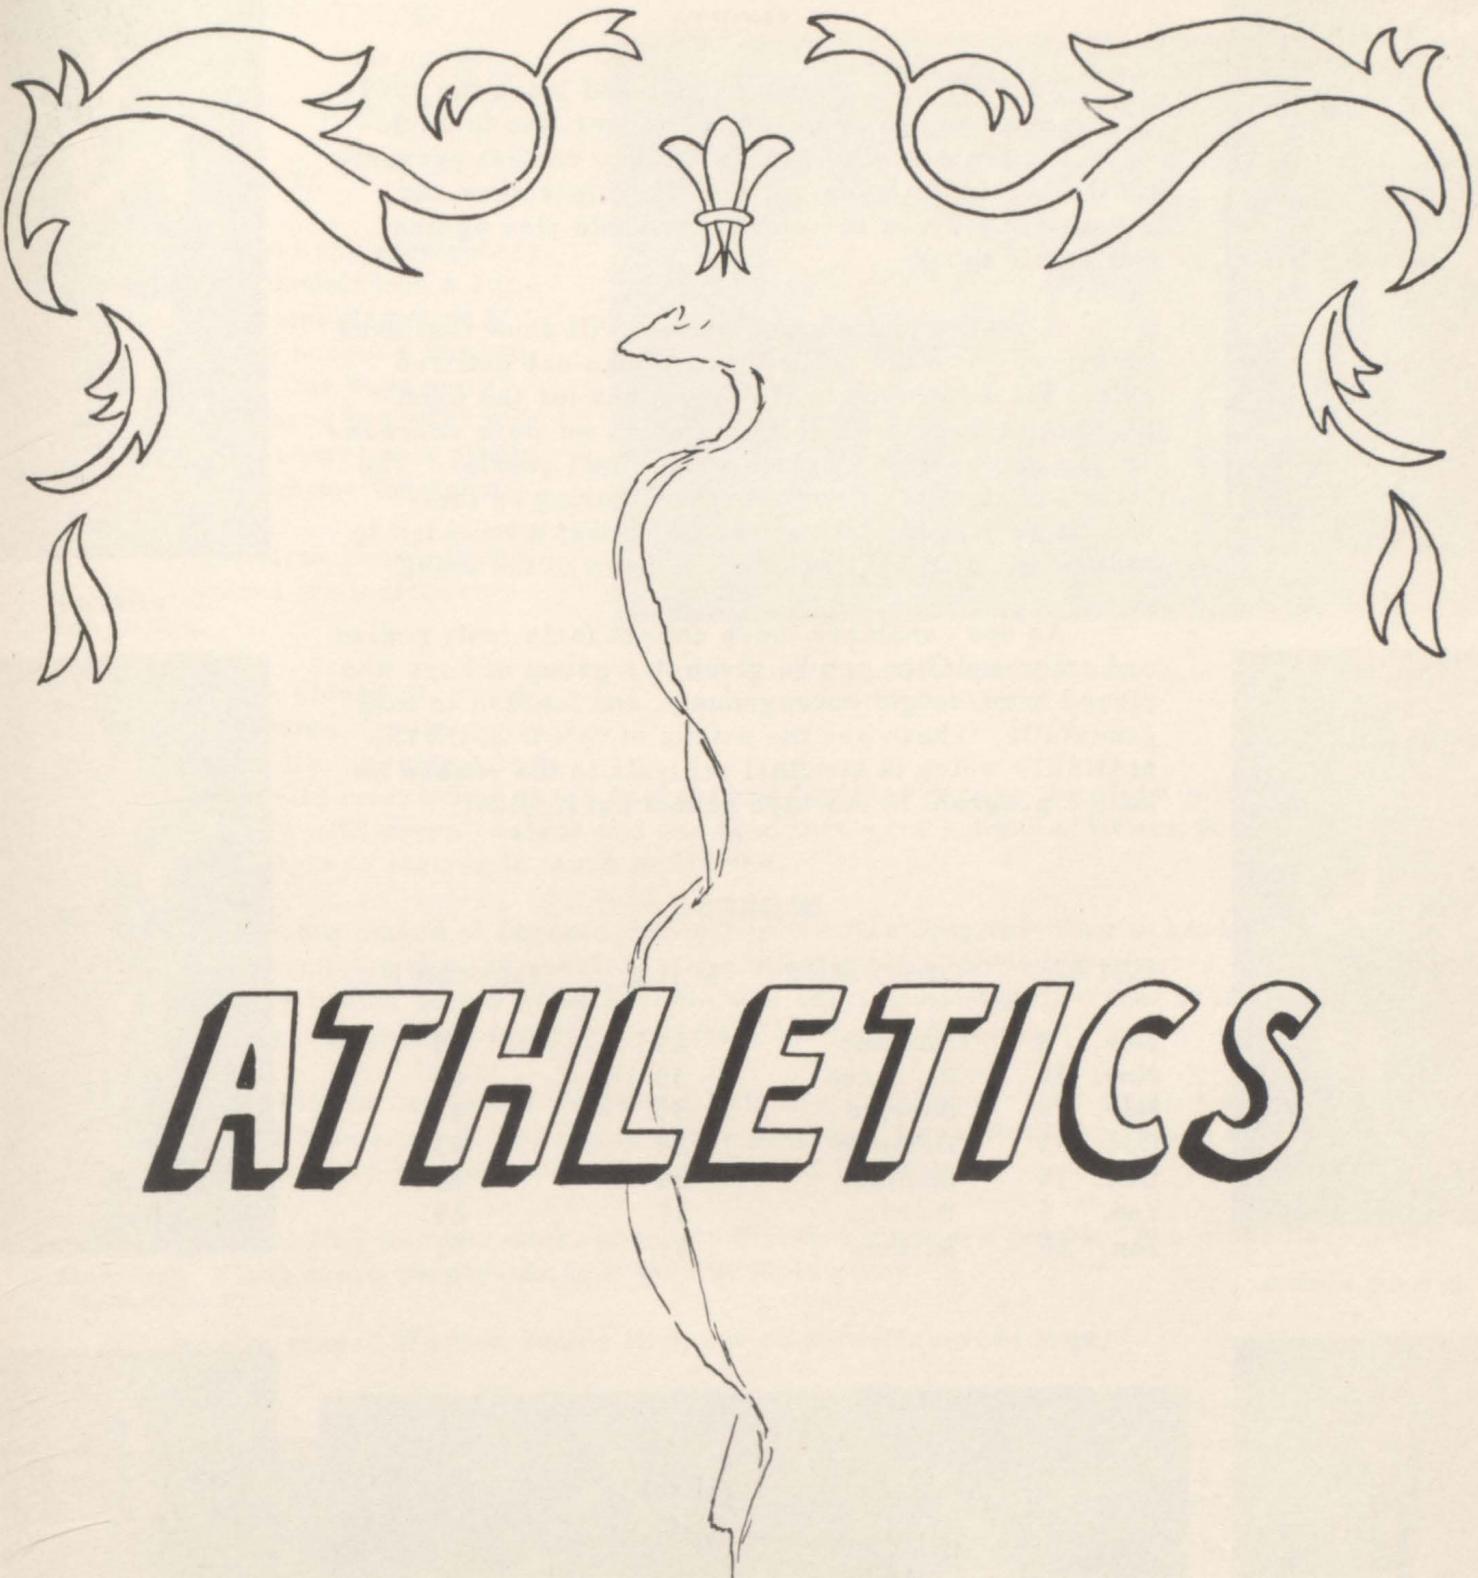

A tall and lanky boy is Earl,
In sports he takes the lead;
From center court the ball he'll hurl
To gain the points we need.

Junior is a country boy
Whose humor is quite vexing;
To tease the girls is his great joy,
But Geometry's perplexing.

Junior's sister, Rose Marie,
Is really a very nice girl;
She has many friends as you can see
And they keep her in a whirl.

Last, but not least, we come to June,
She carries six subjects well;
To our staff she's quite a boon
As editor she rings the bell.

With this last verse the rhyme we end--
We didn't exaggerate;
The Class of '50 this thought send,
"We hope we graduate."

ATHLETICS

SPORTS

From the standpoint of wins and loses the 1949-50 season was not successful; however, the team deserves a great deal of praise. Every contest presented the same obstacles, these being experience and number of players our opponents could play against our small squad.

A review of the game scores will show that even though we were out scored better than one hundred points the difference in the score was for the most part not large. Invariably, as far as we were concerned, the games were decided in the final quarter. The team's anxiety to prevent further scoring by their opponents plus the fatigue factor almost always led to loss of one or more regular members of the team.

F. McGOW

W. WISNASKY

As one considers these salient facts, only praise and commendation can be given to a group of boys who played hard, fought courageously, and learned to lose gracefully. These are the marks of GOOD SPORTSMANSHIP which in the final analysis is the reason for such a program in our high school curriculum.

SPORTS

This year the elementary games were scheduled on a Junior High basis and played as a part of the high school's basketball program. Our boys were very inexperienced but what was lacking in experience was made up in enthusiasm for the sport.

In the first game played against Panama we lost thirty-one to ten.

Next we played St. Jacob here. In this game Harbison and Gause came to life scoring a basket each; Manville contributed three baskets and two free throws for eight points. Bassett was high scorer with seven baskets and one free throw for a total of fifteen points. Final score twenty-eight to sixteen in favor of Marine.

In the game played at Sorento, we lost in the first quarter; they scored twenty to our one. The second and third quarters were about even. The fourth quarter brought the boys to life with twenty points while Sorento was scoring one point. Final score, thirty-seven to twenty-one in their favor. The boys played a good game.

On the 13th of December we played Bethalto Freshmen. This made a great difference because we had only seventh and eighth grade players. Bassett and Harbison made the five points. Final score thirty-seven to five in favor of Bethalto.

Pleasant Hill was our next opponent. Bassett made ten points. The other boys were sleeping. Final score twenty-six to fifteen in their favor.

Marine played Worden Junior High but no statistics were kept.

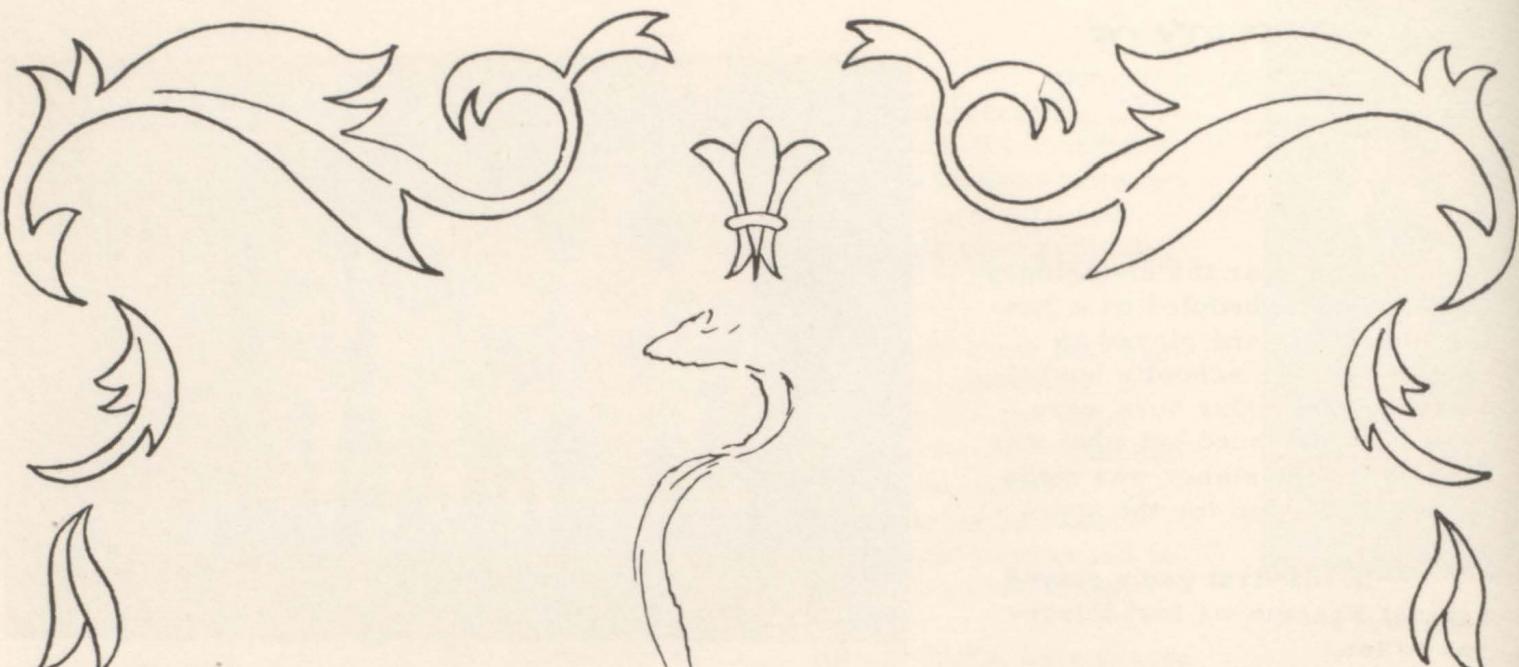

Our last game was with Sorento. Harbison scored high with seven points and Bassett next with two. They won by twenty-one points.

The boys played hard but still need more experience. Better luck next year boys!
